Passengers stand in the security line at Sky Harbor International Airport in Phoenix.

said she might not be visiting her parents in Los Angeles quite so often this fall.

"If I can find a \$200 ticket, I'll go," she said. "If there are fewer flights, that won't bother me, but if flights are really expensive, I just

## Two Friends expands its reach

**GOFFSTOWN** — Two Friends Café on Mast Road in Goffstown has acquired a second location for Two Friends — Good 2 Go at 28 Main St., the site of the former Humble Kitchen.

Good 2 Go will provide everything to go — breakfast,

lunch, meals, catering and sweets, the company said, and will be gearing up to open at 8 a.m. for coffee, juice, bagels, muffins and breakfast.

In the fall, the restaurant will be open on Sundays, the company said in a news release.

### NH Business Reports

**Human Resource Partners LLC** of Dover is celebrating its five-year anniversary.

**Alice Peck Day Health Systems** of Lebanon broke ground for the Woodlands at Harvest Hill retirement community with **UK Architects** of Hanover, a project of 167,230 square feet including an underground garage, 66 residences, anticipated opening in spring of 2010 and an anticipated cost \$26 million.

**Cobb Hill Construction, Inc.** of Concord has been selected for renovations at the **Bedford Village Inn**. The 1810-era structure's newest project will feature a new custom cherry wine bar and wine storage room, improvements to the first and second floors of the restaurant and combining the Meeting Room and the Tap Room.

**Ledyard Financial Group, Inc.** of Hanover was ranked among the top 200 publicly traded community banks in the U.S. based on three-year average return in **US Banker** magazine.

A joint venture between **Waste Management, Blue Ocean Society** and **UNH** at the Yankee Fishermen's Cooperative in Seabrook is the **NH Marine Debris-to-Energy Project**, which collects marine debris, abandoned fishing gear, and other items that can harm the marine ecosystem, to be hauled from a donated dumpster to a waste-to-energy plant, where the debris will be burned to make electricity. Commercial and recreational fisherman can donate derelict fishing gear and underwater debris from along the New Hampshire coastline.
